DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's representative Mr. Nichols Daniel (Reg. No. 29420) on November 10, 2004.

Applicant's representative canceled claim 28 and agreed to incorporate the limitation of claim 28 into independent claim 27. By doing that the application would be in allowable condition.

Allowable Subject Matter

2. Claims 1 – 31, renumbered as 1 – 30 are allowed over the prior art of the record.

Claim 28 is canceled.

3. The following is an examiner's statement of reasons for allowance: The present invention is directed to "a programmable motion estimation module, which process pixel values from a sequence of digital images with respect to all the features as expressed in independent claims 1 and 27 (i.e. fig. 5)". The prior art of the record fails to anticipate or rendered obvious the claimed invention including all the features as recited in the above claims.

Art Unit: 2613

Renumbered claims 2 – 26 and 28 – 30 are allowed with respect to independent claims 1 and 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
